

HARD CORE[®]

New Product!

Smart Battery Charger

12 Volt, 2A/ 10A/ 20A Selectable, 7 Stage Charging, Switch Mode

P/No. SX2000

7 STAGE CHARGING

Intelligent electronics monitor the charging process to deliver an advanced 7 stage charge; maximising battery performance and life.

MULTI-CHEMISTRY

Set the charging profile to suit the battery's chemistry type, for all Lead Acid Battery types including GEL, Flooded (WET), Maintenance-free, Sealed, VRLA and Calcium batteries.

INCLINED PLANE DISPLAY

The buttons and LEDs are displayed on an inclined surface, angled towards the users. This makes it convenient to check the settings and charging status indicated by the LEDs.

PERFECT FOR CHARGING AND MAINTAINING THE FOLLOWING APPLICATIONS
